SUMMARY

Computer Science Engineering student (AKTU) with hands-on data analytics experience in Python (Pandas, NumPy), SQL, Power BI, and Excel. Currently working as a Data Analyst Intern at SocialMoon, building automated reporting pipelines and dashboards across social media and e-commerce datasets. Pursuing Microsoft Power BI Certification.

EXPERIENCE

Data Analyst Intern, SocialMoon

Feb 2026 – Present

Lucknow, India

- Analyzed performance data across 6+ digital platforms, preparing recurring reports to identify engagement trends, audience behavior, and campaign opportunities.
- Developed 10+ automated Excel/Power BI dashboards, reducing manual reporting effort by approximately 60% and improving visibility of key marketing KPIs.
- Cleaned, transformed, and consolidated 50K+ records from multiple data sources using Python (Pandas) and Excel for accurate reporting and analysis.
- Generated actionable insights from campaign data, helping improve content strategy and increase engagement performance by 25%+.
- Collaborated with cross-functional teams to track KPIs including reach, impressions, conversions, CTR, and audience growth.

PROJECTS

Indian E-Commerce Sales Analytics | Python | SQL | Power BI | Pandas | Data Visualization

- Built an end-to-end sales analytics pipeline by processing 100K+ transaction records from multiple raw datasets using Python and SQL.
- Performed data cleaning, preprocessing, feature engineering, and exploratory data analysis (EDA) to identify revenue trends and customer purchasing patterns.
- Created 20+ SQL queries, views, and stored procedures for sales performance analysis, customer segmentation, and business reporting.
- Designed an interactive Power BI dashboard with 15+ KPIs and visualizations covering revenue, profit trends, product categories, and regional performance.
- Automated PDF report generation using Python, cutting repetitive reporting tasks by 70%.

AI Resume Screener | Python | NLP | Machine Learning | Streamlit

- Developed an AI-powered resume screening system capable of analyzing and ranking 500+ resumes against job descriptions.
- Implemented NLP techniques including text preprocessing, TF-IDF vectorization, and similarity scoring to automate candidate shortlisting.
- Improved resume filtering efficiency by reducing manual screening time by approximately 80%.
- Built an interactive dashboard allowing recruiters to upload resumes, analyze skills, and generate candidate compatibility scores.

E-Commerce Sales & Customer Insights Dashboard | Python | SQL | Power BI

- Built an end-to-end analytics pipeline on the Kaggle Target e-commerce dataset, converting raw CSVs into SQL tables and authoring queries for product, customer, and regional performance analysis.
- Designed a multi-page interactive Power BI dashboard with filters by product category, time period, and region to surface sales and customer behavior trends.

TECHNICAL SKILLS

Programming & Analytics: Python, SQL, Advanced Excel, Data Cleaning, Data Analysis, Statistical Analysis

Libraries & Tools: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Data Visualization: Power BI, Excel Dashboards, Data Storytelling, KPI Reporting

Database: MySQL, PostgreSQL, SQL Queries, Joins, Views, Stored Procedures

Machine Learning: Regression, Classification, NLP, TF-IDF, Model Evaluation

Business Analytics: EDA, Customer Segmentation, Sales Analysis, Performance Reporting

CERTIFICATIONS

- Microsoft Power BI Certification — In Progress

EDUCATION

Ambalika Institute of Technology

2023 – 2026

B.Tech in Computer Science Engineering, AKTU University — Lucknow, India

Relevant Coursework: Data Structures & Algorithms, DBMS, Computer Networks, Software Engineering

ACHIEVEMENTS

- Received scholarship recognition in Diploma for excellent academic results (2021); Sports Co-ordinator for departmental sports, winning medals at the annual college athletics fest.
- Organized and coordinated departmental technical events and workshops.
